Chocolate dipped strawberries

These crowd-pleasers are perfect for hot summer days. With just two ingredients, these chocolate dipped strawberries are quick and easy and are a delicious fair trade dessert.

Ingredients:

- 1 punnet Large strawberries
- 1 cup Chocolate drops*

Method:

1. Line a baking tray (one that will fit into your freezer).
2. Cut the green tip off the end of each strawberry (this will help them to stand upright while they freeze) and place on your lined baking tray.
3. Place strawberries in freezer for 15 minutes.
4. While your strawberries are in the freezer melt your chocolate drops using the double boiler method. Stir until smooth.
5. Dip each strawberry in the melted chocolate, then place back on the baking tray (careful with your fingers, melted chocolate is HOT!)
6. Freeze until the chocolate sets, 30 minutes. Serve or freeze in an airtight container for up to a week.

Tip:

You can do this with almost any fruit. Cherries work particularly well and are usually available at the same time as strawberries.
